

EU-TYPE EXAMINATION CERTIFICATE

The following model of Personal Protective Equipment has been subjected to an EU-type examination in accordance with the module B of the PPE regulation (2016/425) and has been shown to satisfy to essential health and safety requirements.

Certificate N° 0075/2602/162/12/19/3700

Issued by CTC, Notified Body N°0075, to the following model of personal protective equipment :

Manufacturer : RBF
52 rue des Tulipes - 83 700 Saint Raphaël
France

Description

PPE Type : *Protective motorcycle's glove*
Product reference : GLOV19BLU
Article code : /
Glove description : Gloves made with blue full grain leather.
Palm reinforced by full grain leather flesh side.

Levels of performance

EN 420:2003+A1:2009

-

EN 13594:2015

Level 1

At the date of certificate the product is in compliance with Annex XVII of REACh regulation (n° 1907/2006 and revisions)

Full description of the PPE, reference rules verified in the context of the EU-type examination and information given on the product are detailed in the manufacturer's technical file index 02 dated from January 2021

NOTA : Any modification to new items of the personal protective equipment object of this EU type approval certificate or any modification of the information contained in the manufacturer technical file which served for the deliverance of the EU type approval certificate (change of address, change of company status) should be brought to the attention of the notified body in accordance with Annex V §7.2 of Regulation 2016/425. Any marking on the PPE which is not concerned by the Regulation (UE) 2016/425, is not covered by this certificate.

Issued in Lyon by
Didier GUISSADO
Certification and Quality Manager

Date of first issue : 13 December 2019
End of validity date : 13 December 2024
Update 01 : 12 January 2021

In application of the Regulation 2016/425 of the European parliament and the Council of 9th March 2016 related to Personal Protective Equipment and repealing the Directive 89/686/EEC.

MARKING - PACKAGING

Information printed on the glove :

Logo of Manufacturer :

Logo 

Glove's reference : GLOV19BLU

Article Code : /

Size indicator

Pictograms related to risks against which protection is offered with performance levels

Information pictogram

Address of Manufacturer :

Date of Manufacture (month/year) and/or Serial number :

Marking example :

Method of marking on the glove :

Hot stamp and ink pad

Packaging :

1 pair per wallet

PPE subject to ageing :

The design performance can not be significantly affect by ageing when stored in appropriate conditions (humidity, temperature, clean , ventilated, light).

Declaration of conformity :

Available with product.

MEANS OF CONTROL

All our leather suppliers send us a leather certificate of conformity. This certificate proves the conformity of the leather with the European standards in force for gloves, such as: pH, azo, Cr IV.

In terms of innocuousness, each leather used is tested again by CTC before use in production.

Then we manufacture a number of pair for the performance of motorcycle tests (requirements ergonomic, maitien, resistance of the seams, resistance to the cut, ...).

After obtaining the AET we can start the production.

The leathers will be visually controlled during 3 stages (the cut, the refining and during the setting in cover), if during one of these stages we observe a leather defect that can influence the final performance of the glove we eliminate. Moreover during refining all the seams of the glove are inspected, if one of them is a problem we remove the glove of the production for repair if possible or destruction if nothing can be done.

After certification, chemical and physical tests are again performed at least once every five years.

The chemical tests performed are pH, azoïque, Cr IV, organo etain and the nickel pressure test.

The physical tests performed are: tear resistance on perforated and solid leather, hard element inclusions, ergonomic requirement, size and length, support, seam resistance, cut resistance and impact abrasion.
